

Next Steps from 11/19/13 Meeting

1. IMPLEMENTATION TEAM:

- JENNY did monitoring research on squirrels. She will type up her notes and will send that onto Implementation team.
- EVERYONE work on the specific tab on the table, and include your name in the filename so we can merge the document efficiently.
- FELIX to create tabs with each species so each person could work on their own tab
- TERRA to add table to FTP site.
- JENNY - squirrels and porcupines.
- FELIX - bats.
- JANELLE - beetles.
- LYNNE - owls and hawks.
- CASEY - birds.
- STEVE - review.
- LYNNE to email a timeline motivator.

2. EVERYONE - For Section 3.0 Identifying species - in addition to finding envirograms, write up one paragraph to explain why we're including these species.

3. TERRA - send Lynne the species rationale that's been done.

4. JANELLE - flush out the beetle justification (Jenny may have some info)

5. RICK - assign out sections of the report.

6. LYNNE and TERRA - set a date for next week to get the species rational done.

7. FELIX talk to Kirk Novo about bats.
